```java
1 package iValue;
2
3 public class VBool implements IValue{
4
5     private boolean comparation;
6
7     public VBool(boolean comparation) {
8         this.comparation = comparation;
9     }
10
11     public boolean get() {
12         return comparation;
13     }
14
15     @Override
16     public void show() {
17
18     }
19
20     public String toString() {
21         return String.valueOf(comparation);
22     }
23
24 }
25
```
