```java
1 package iValue;
2
3 public class VInt implements IValue {
4
5     private int value;
6
7     public VInt(int value) {
8         this.value = value;
9     }
10
11     public int getVal() {
12         return value;
13     }
14
15     @Override
16     public void show() {
17         // TODO Auto-generated method stub
18
19     }
20
21     @Override
22     public String toString() {
23         return Integer.toString(getVal());
24
25     }
26 }
27
```
